Search type: Headword ▼

Search for:  Start Search

You can search for words in the dictionary by several methods:

### Headword Only

Will search **only the Gaelic** headwords of the dictionary for any that contain the string given.

### Full Word

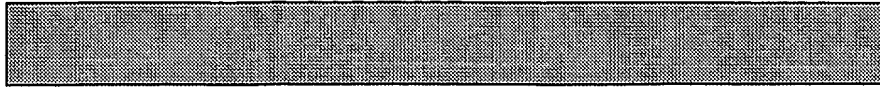

Searches the entire dictionary, **English and Gaelic** for occurrences of the given string as a **complete word** (not part of other words).

### Substring

Searches the entire dictionary, **English and Gaelic** for occurrences of the string anywhere in the text.

## Notes:

- You can enter "a\" for "à", "e\" for "é", and so on.
  - **Warning!** The dictionary (MacBain's) was keyed in by hand, and has not yet been verified. There are errors. A few have been quietly fixed during the conversion to HTML, while others were no doubt added, and many have been deliberately left in awaiting a double check of the data.
